Pas de share

Evaluation pour cet événement superflu (trop de rating sur le meme screen)

Pas de statuts pour les invités (accepted, pending, declined)

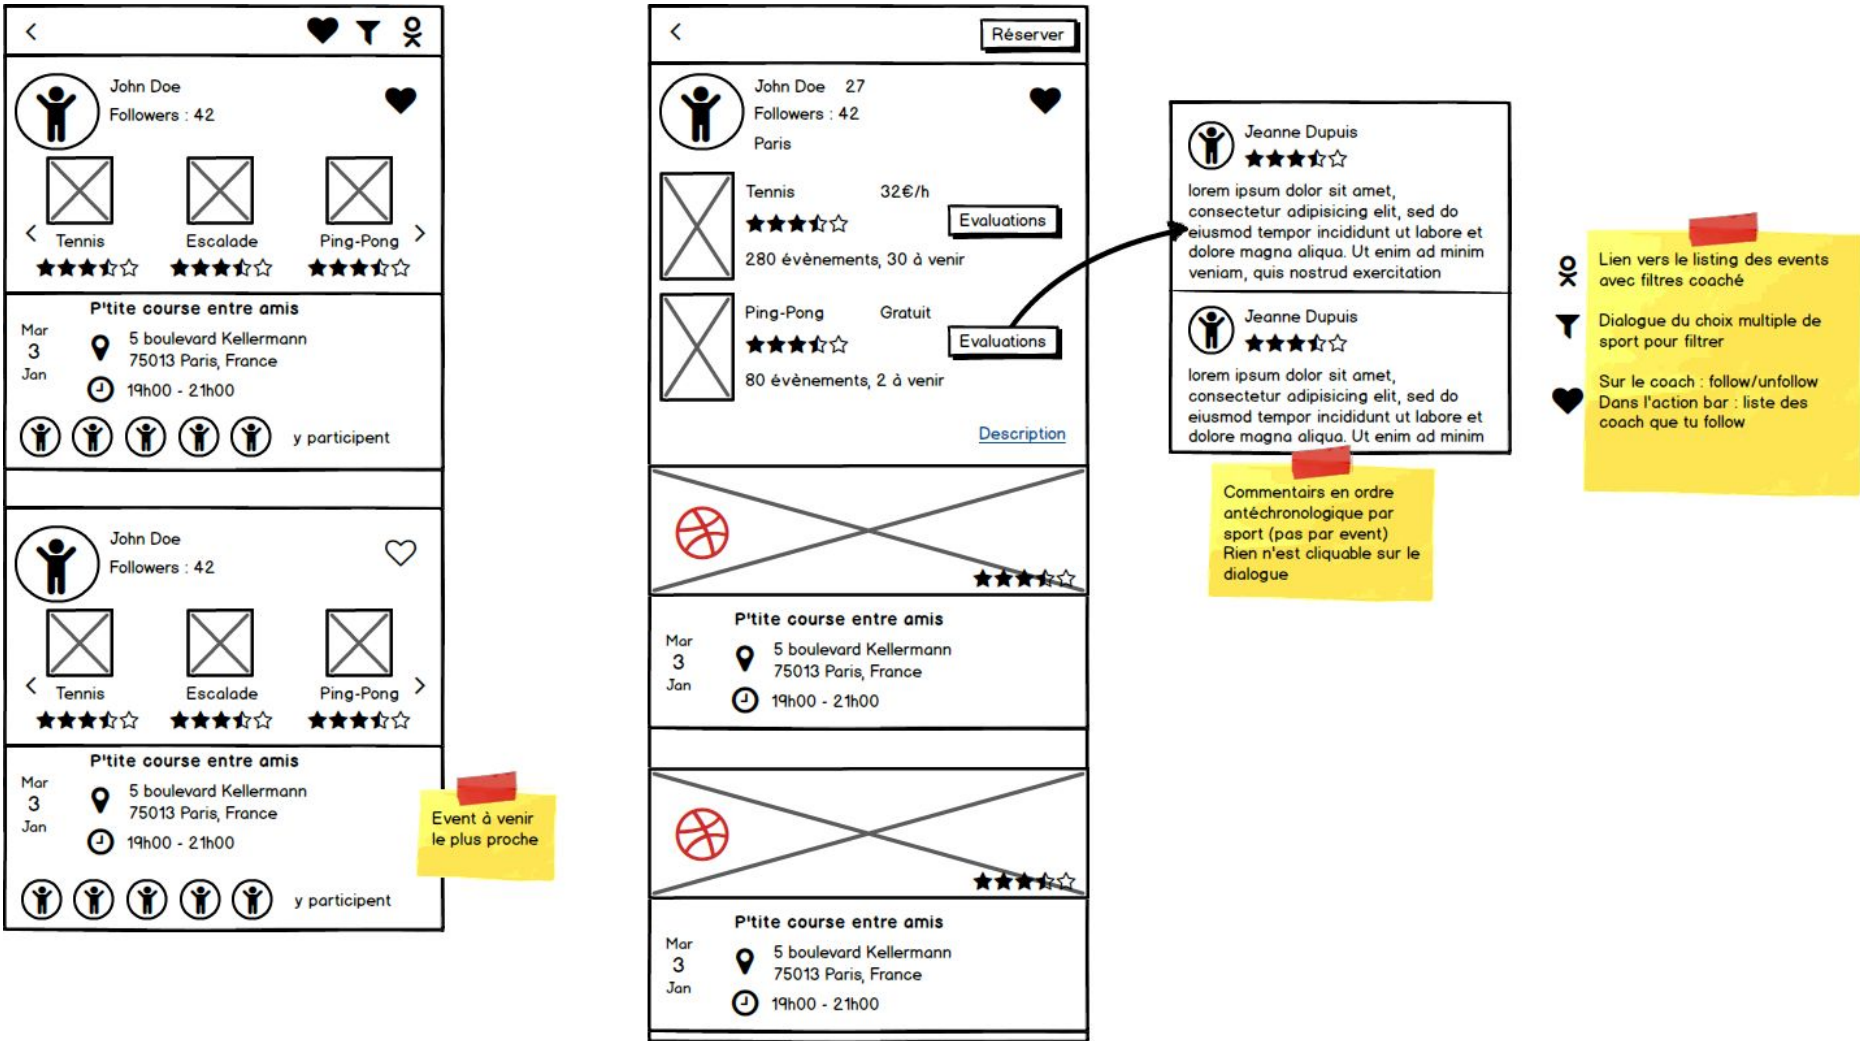

- We can remove participants only if you are the owner and the event is **free**.
- If owner of the event, open the tab "Participants" by default, else, open "Description"

INVIT SPORTROOPERS

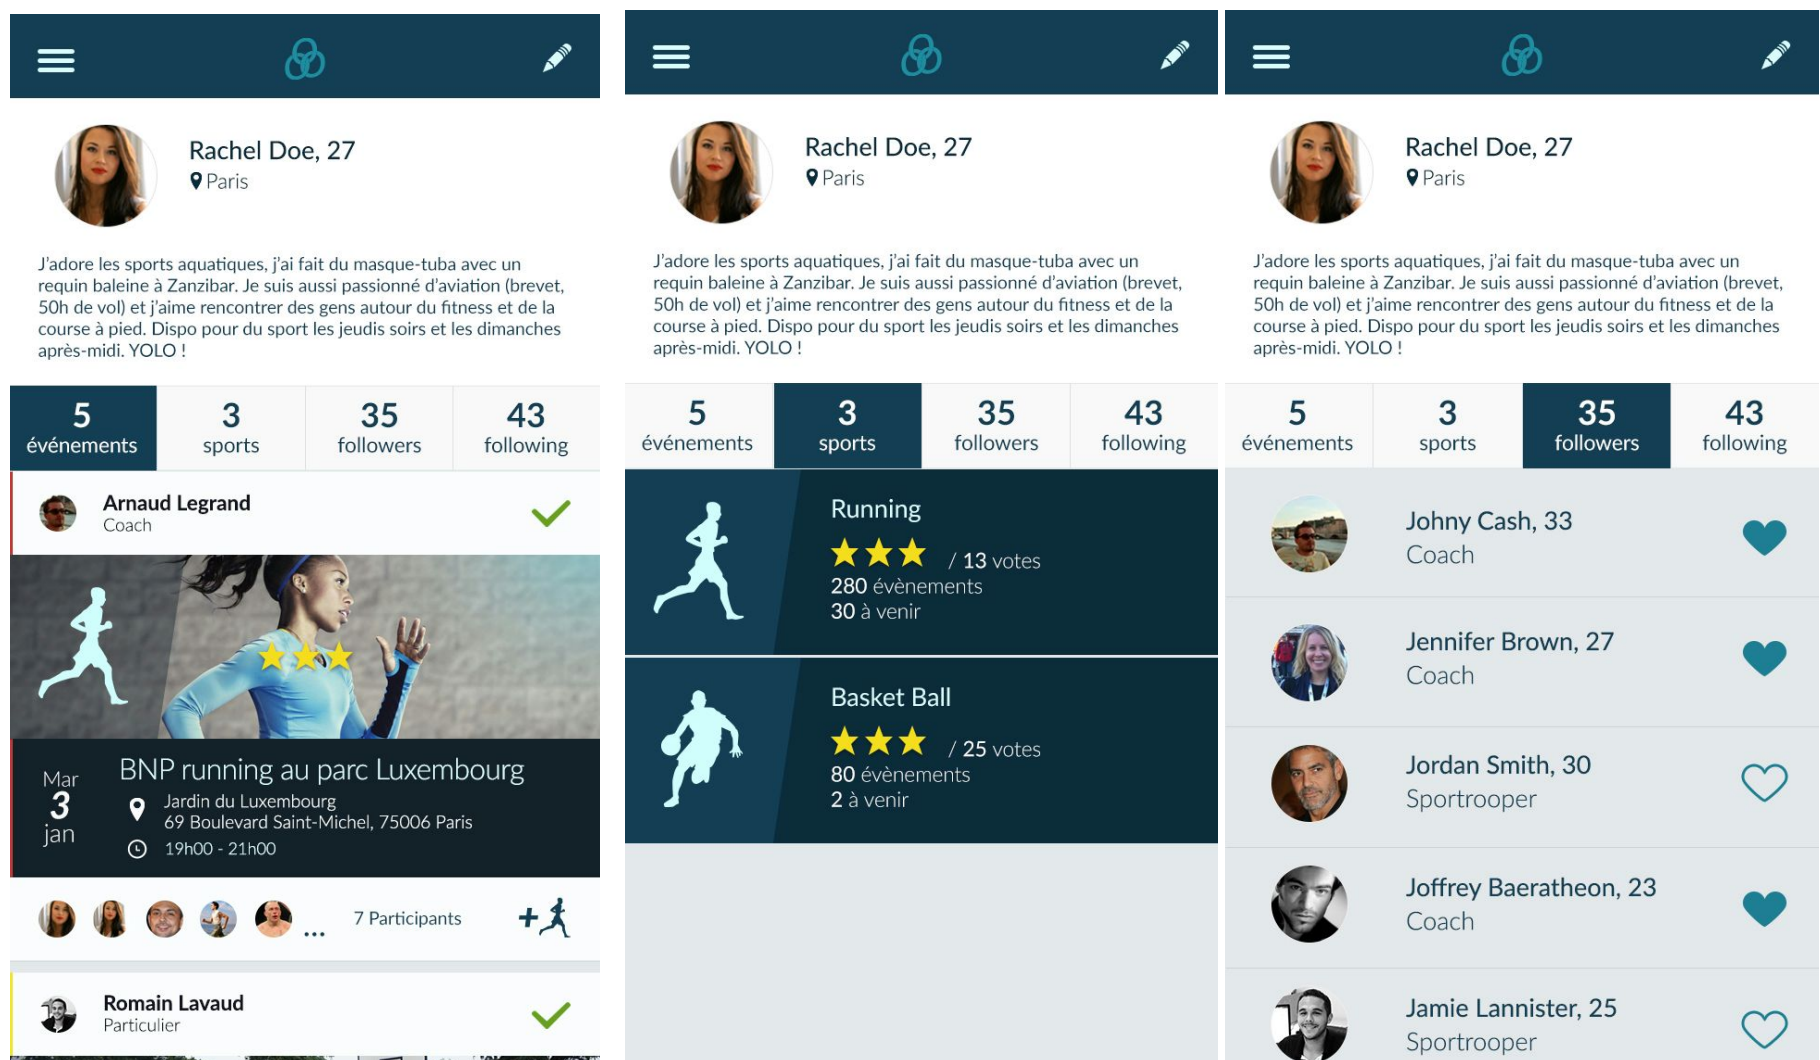

Top of the list will be the users you are already following, then we list Sportroopers that have sports and followers in common.

COACHS (LISTING / VIEW)

"Description" => Open a popup with text (stored in user data)

SPORTROOPERS (Profile)

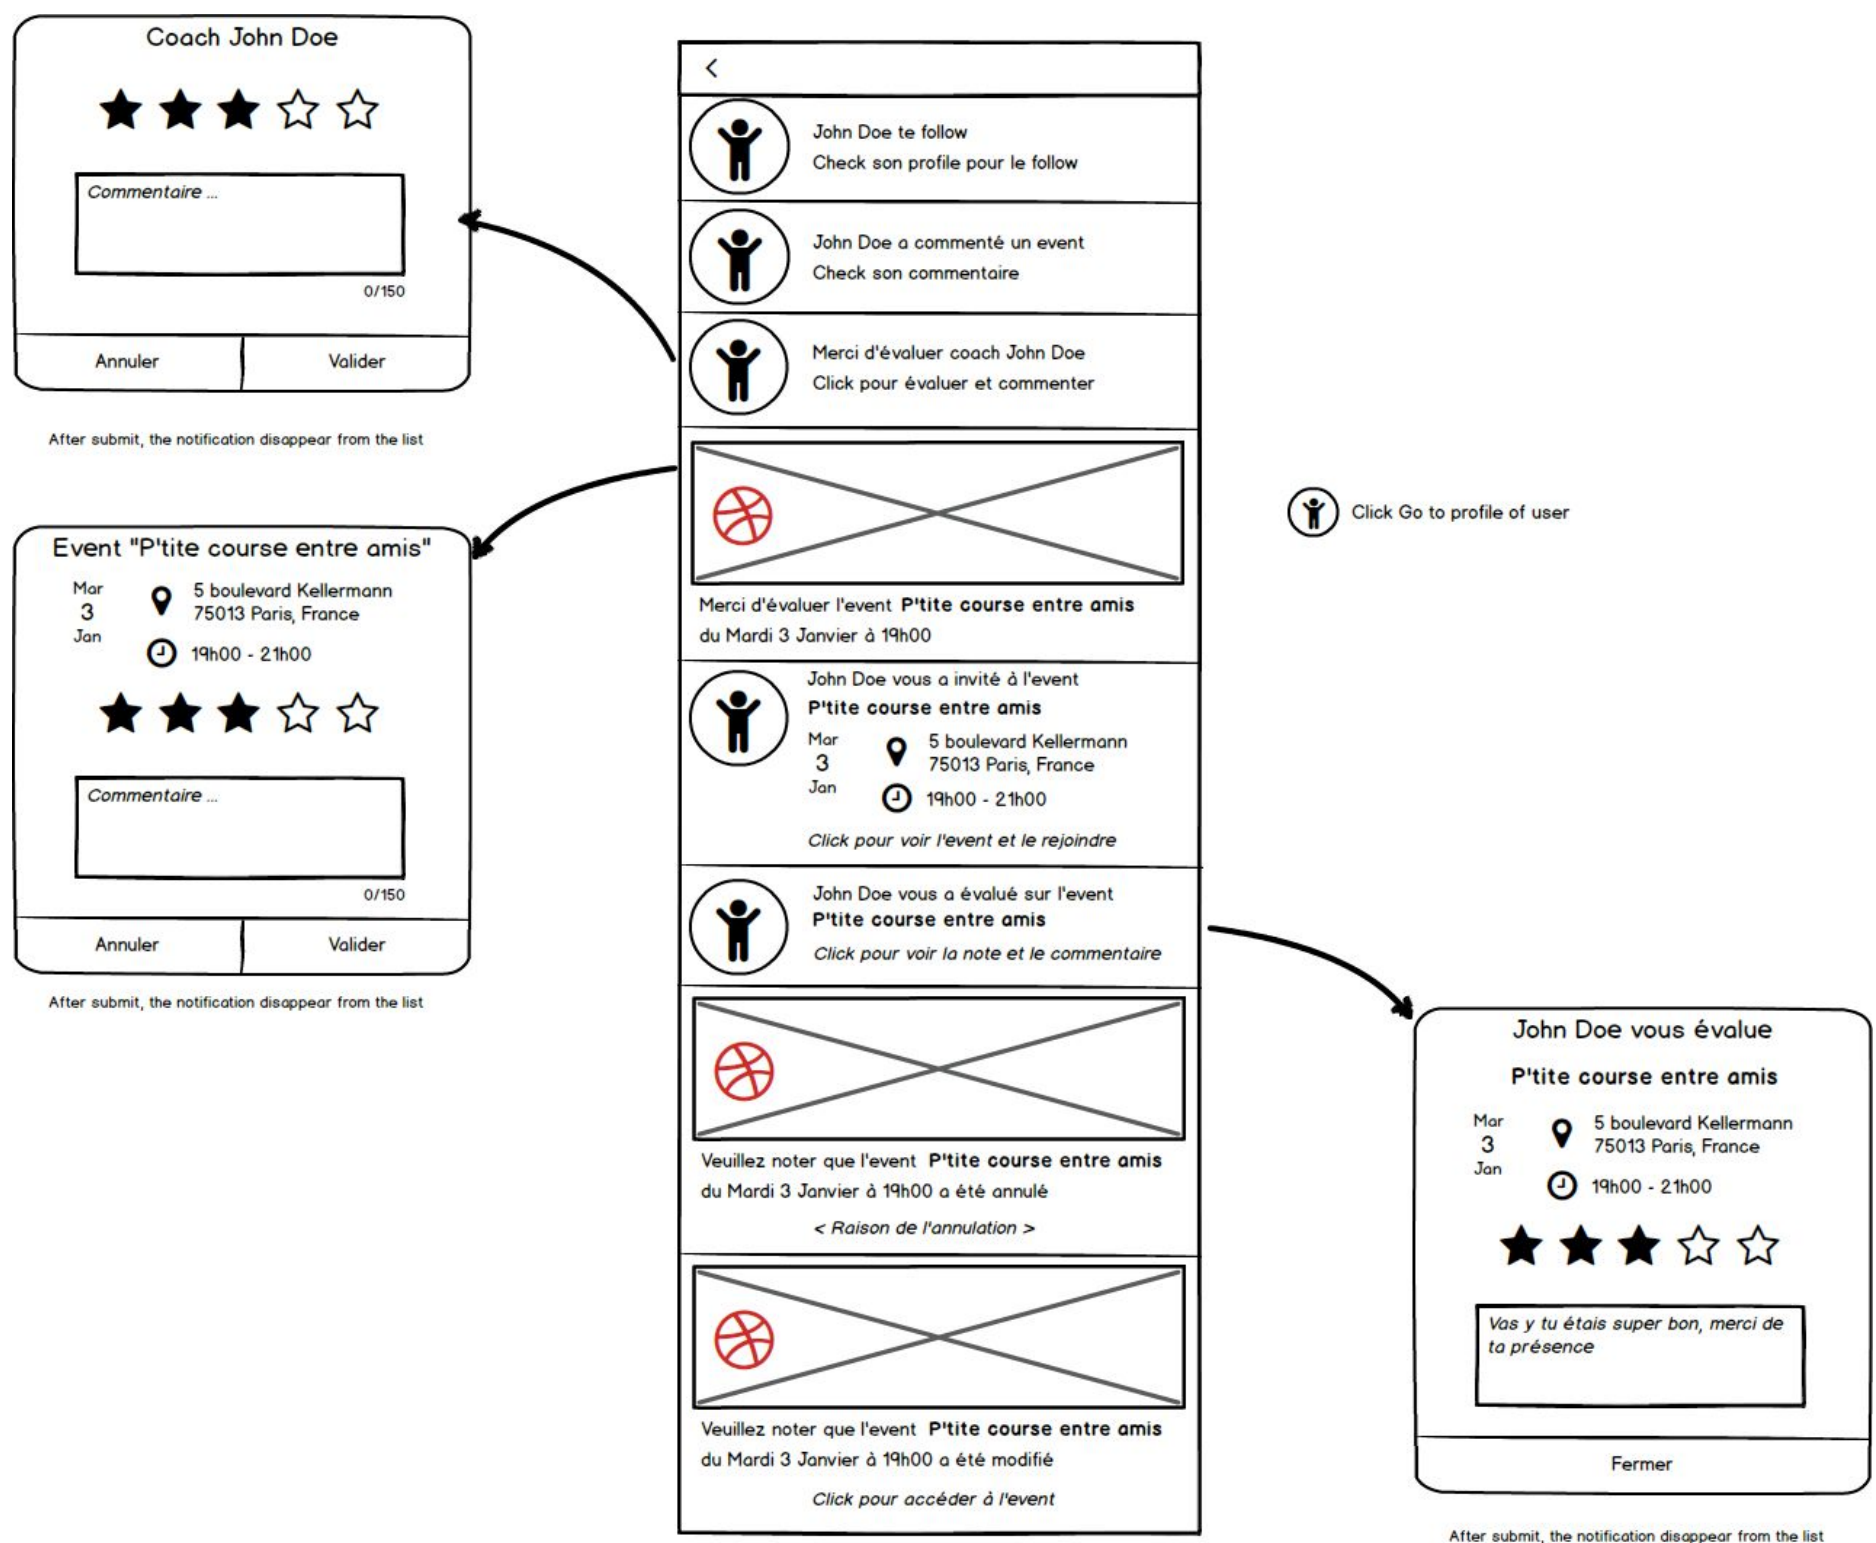

- “5 evenements” : events to come
- “3 sports” : sports selected by user
- “35 followers” : list of followers
- “43 following” : list of following

Edit : in sport listing, “13 votes” => “13 évaluations”

Edit : in followers/following, add a new line **""X sport(s) pratiqué(s) / XX followers"** below the user type

NOTIFICATIONS

- The user sees all the events for which he has been invited
- After the user attends an event, a feedback request is displayed (rating and comment)
- After the user attends an event, if he has been evaluated, his evaluation and the comment received are posted here.
- Event for which user is booked is canceled.
- Event planned by user did not meet expectations (min participants not reached) and event canceled
- Event has been modified by owner
- Every comment in the events => participants and owner receive a notification
- John Doe is following you. Check his profile and follow him too.

FACEBOOK INTERACTIONS

Need to define all actions that triggers a post on the FB profile of the user (if connected).
The post could contain a link to the event in the APP (?)
